TEMPLATE · PRIORITISATION TECHNIQUES

Kano Model

Sort candidate features into these five categories before prioritising. Invest in performance features and delighters, and deliver basic features without over-investing.

CATEGORY	MEANING	FEATURES
Basic	Missing it causes complaints, having it creates no delight.	
Performance	Satisfaction rises in proportion to how much you deliver.	
Delighters	Unexpected extras that create disproportionate satisfaction.	
Indifferent	Customers do not care either way. Usually not worth building.	
Dissatisfaction	Actively upsets customers. Avoid.
